- Implementation method
Google Forms is adopted
- Implementation period
January 6th, 2020 to January 31st, 2020
- Survey Respondent (MLF Users from January to December 2019)
1492people (last year:1581people)
- Number of respondents
Japanese:159people, English:81people total:240people
(last year Japanese:350people, English:149people total:499people)
- Response rate
16.1% (last year:31.6%)

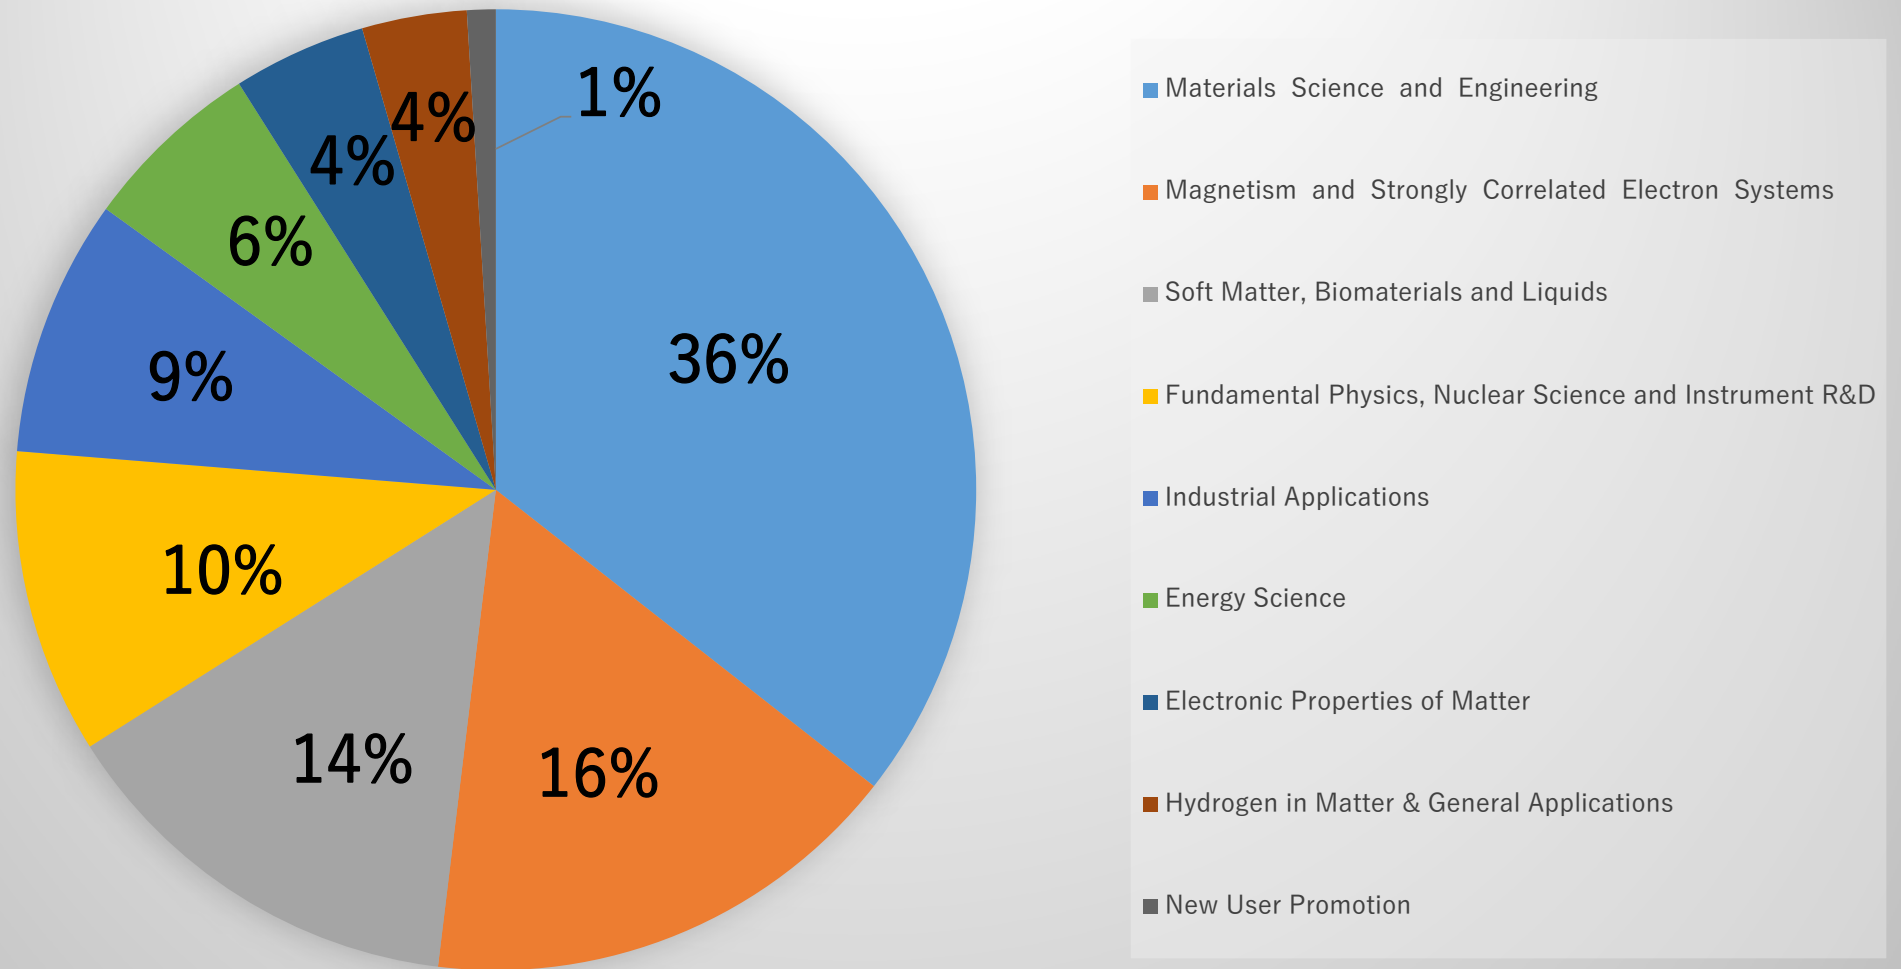

Number of respondents by job title

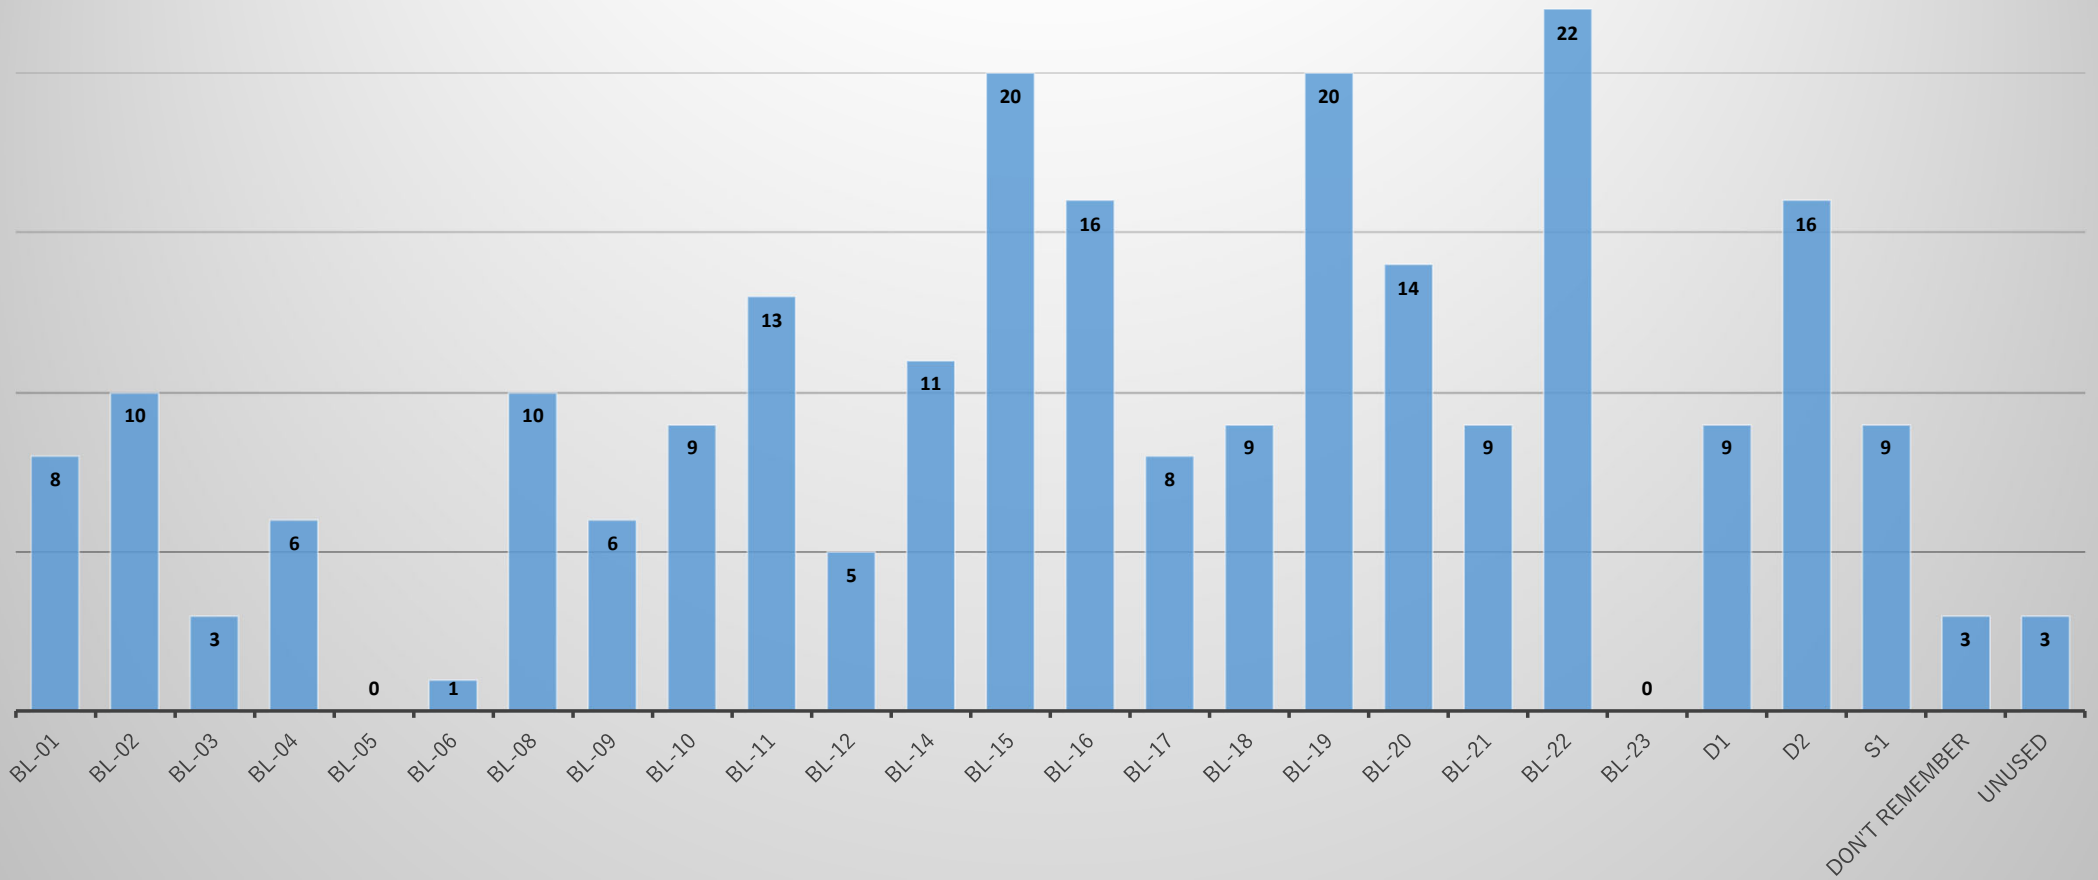

Other Breakdown

Corporate Researcher, Industrial	37
Researcher at National Institute	8
Grad student, Undergraduate student	2
Coordinator for Support of Neutron Resources	1

Number of respondents by research field

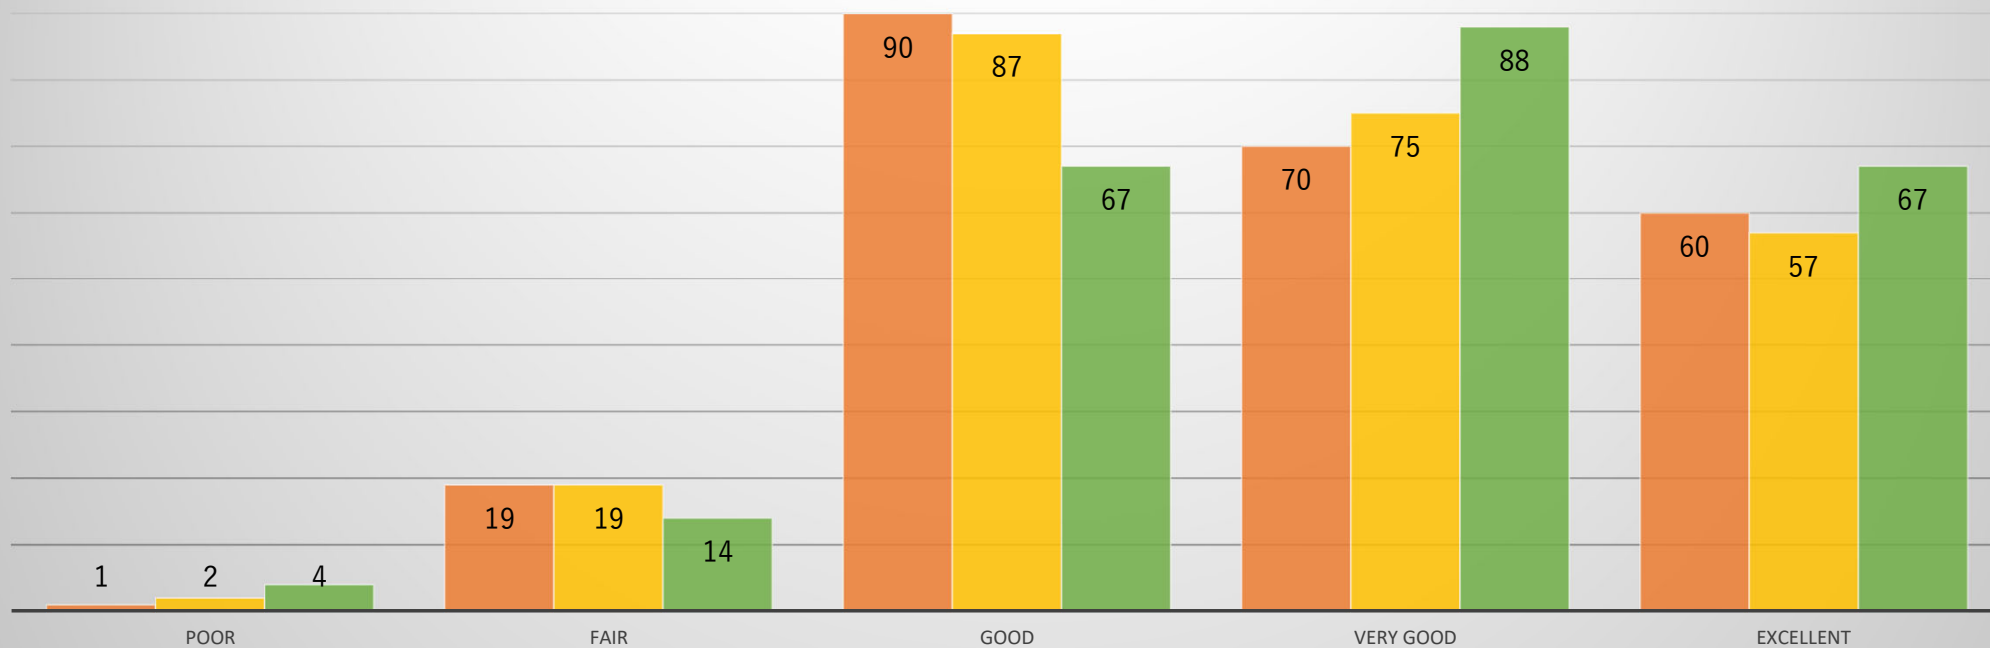

Number of respondents by beamline

Number of responses by question items

Comparison graph of items by number of respondents.

1. Proposal process

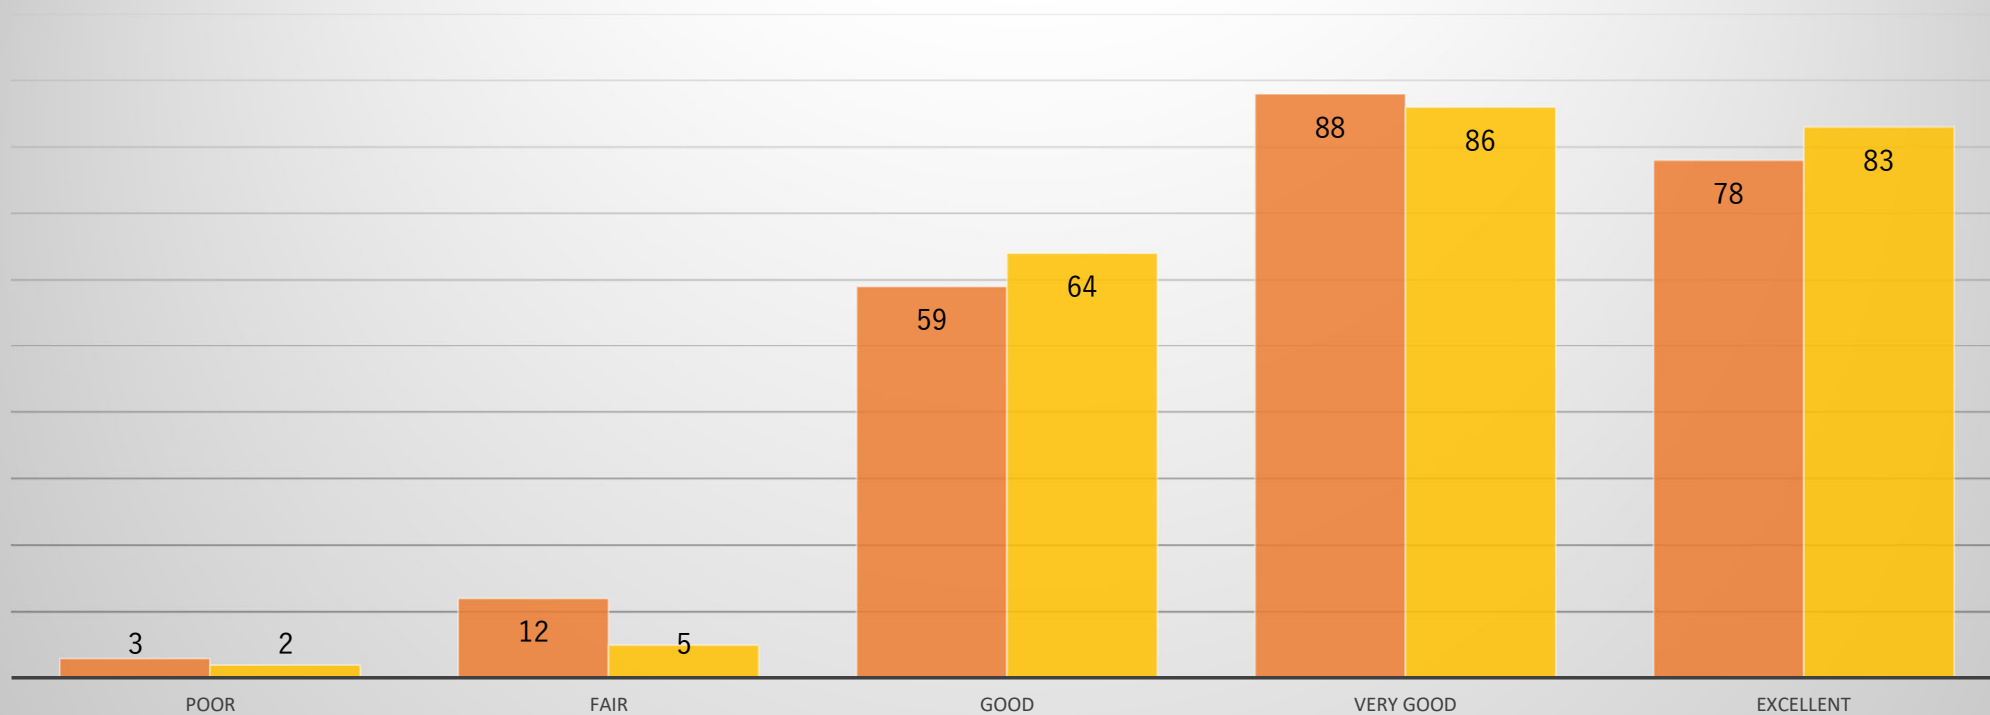

■ 1-1) Ease of proposal process

■ 1-2) Efficiency of scheduling time

■ 1-3) Fairness of proposal process

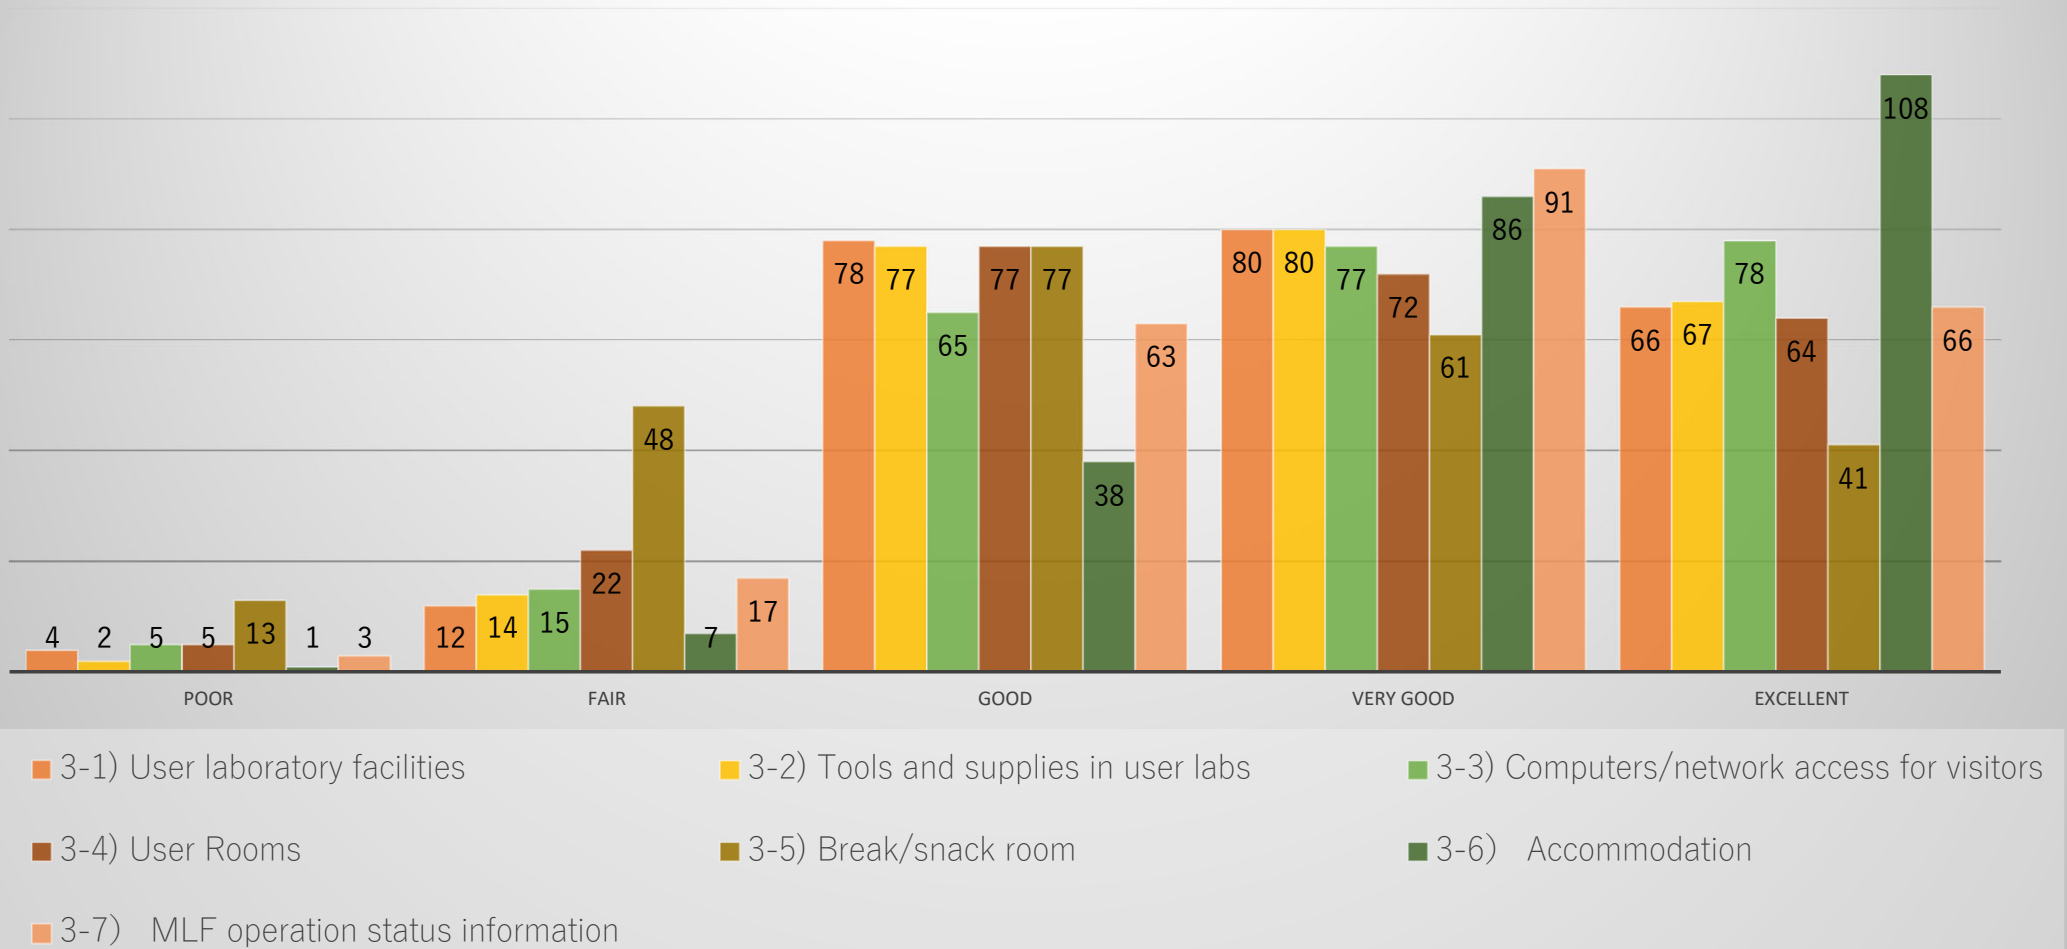

2. Safety Education

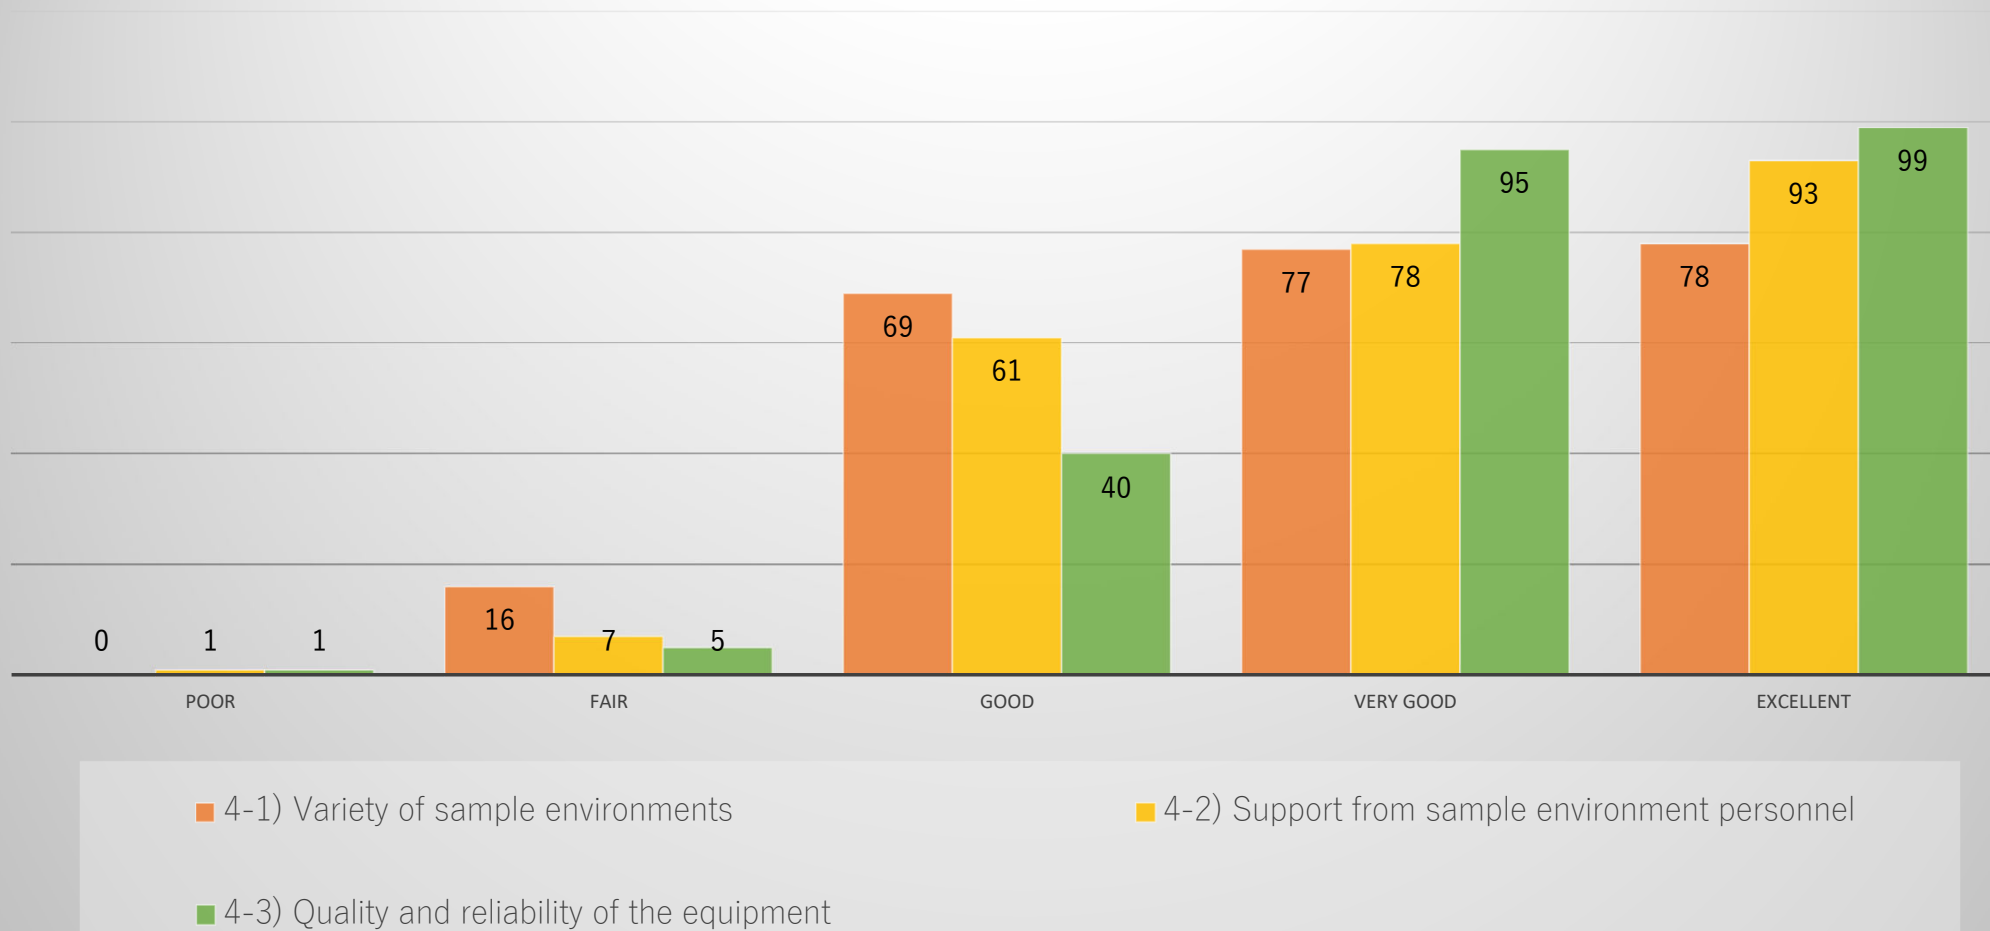

■ 2-1) Effectiveness of computer based training

■ 2-2) Appropriateness of the contents regarding safety education

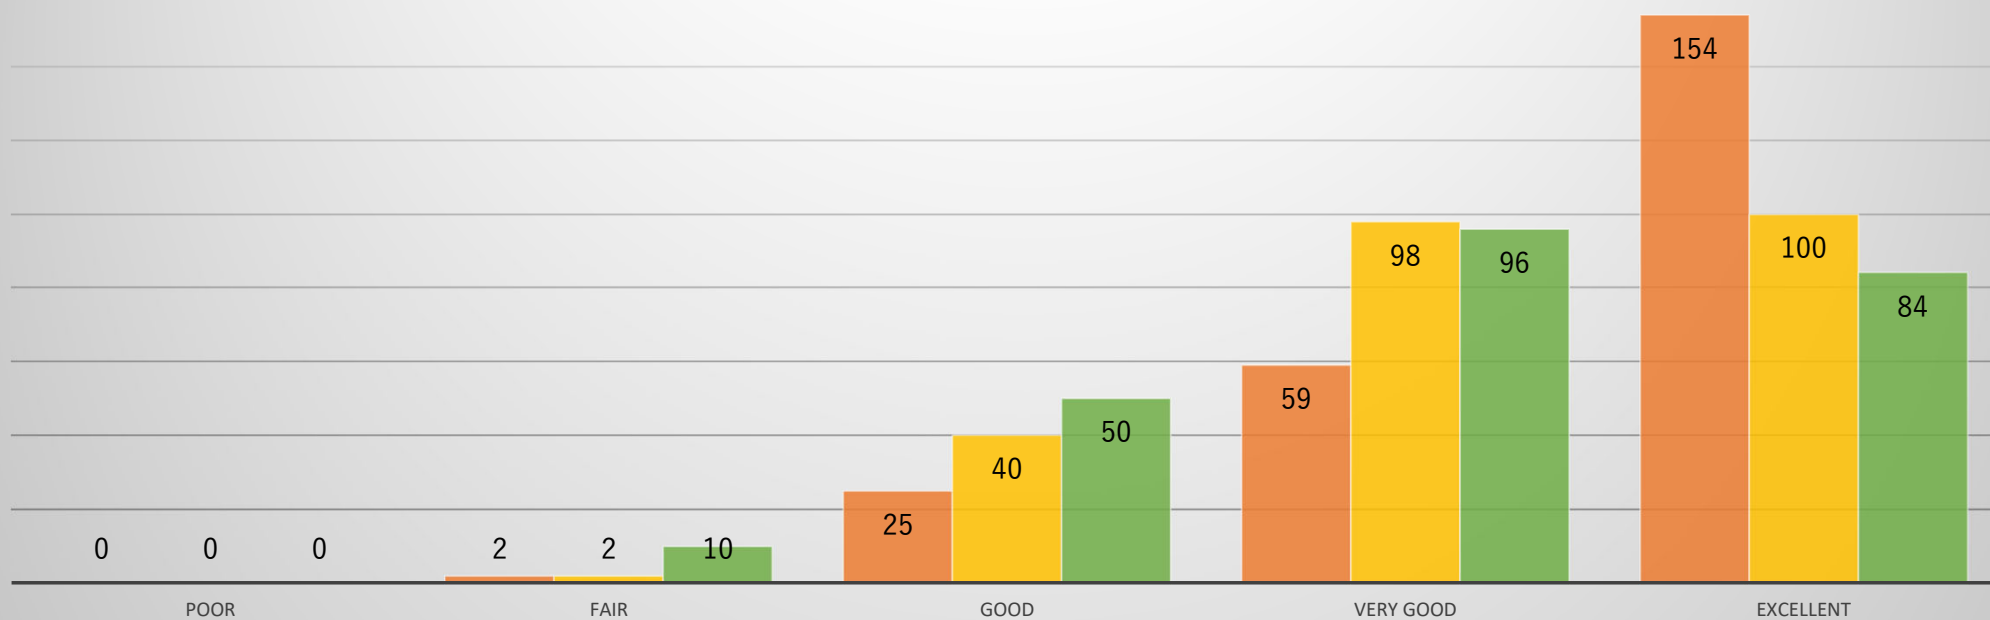

3. Support Facilities

4. Sample environments

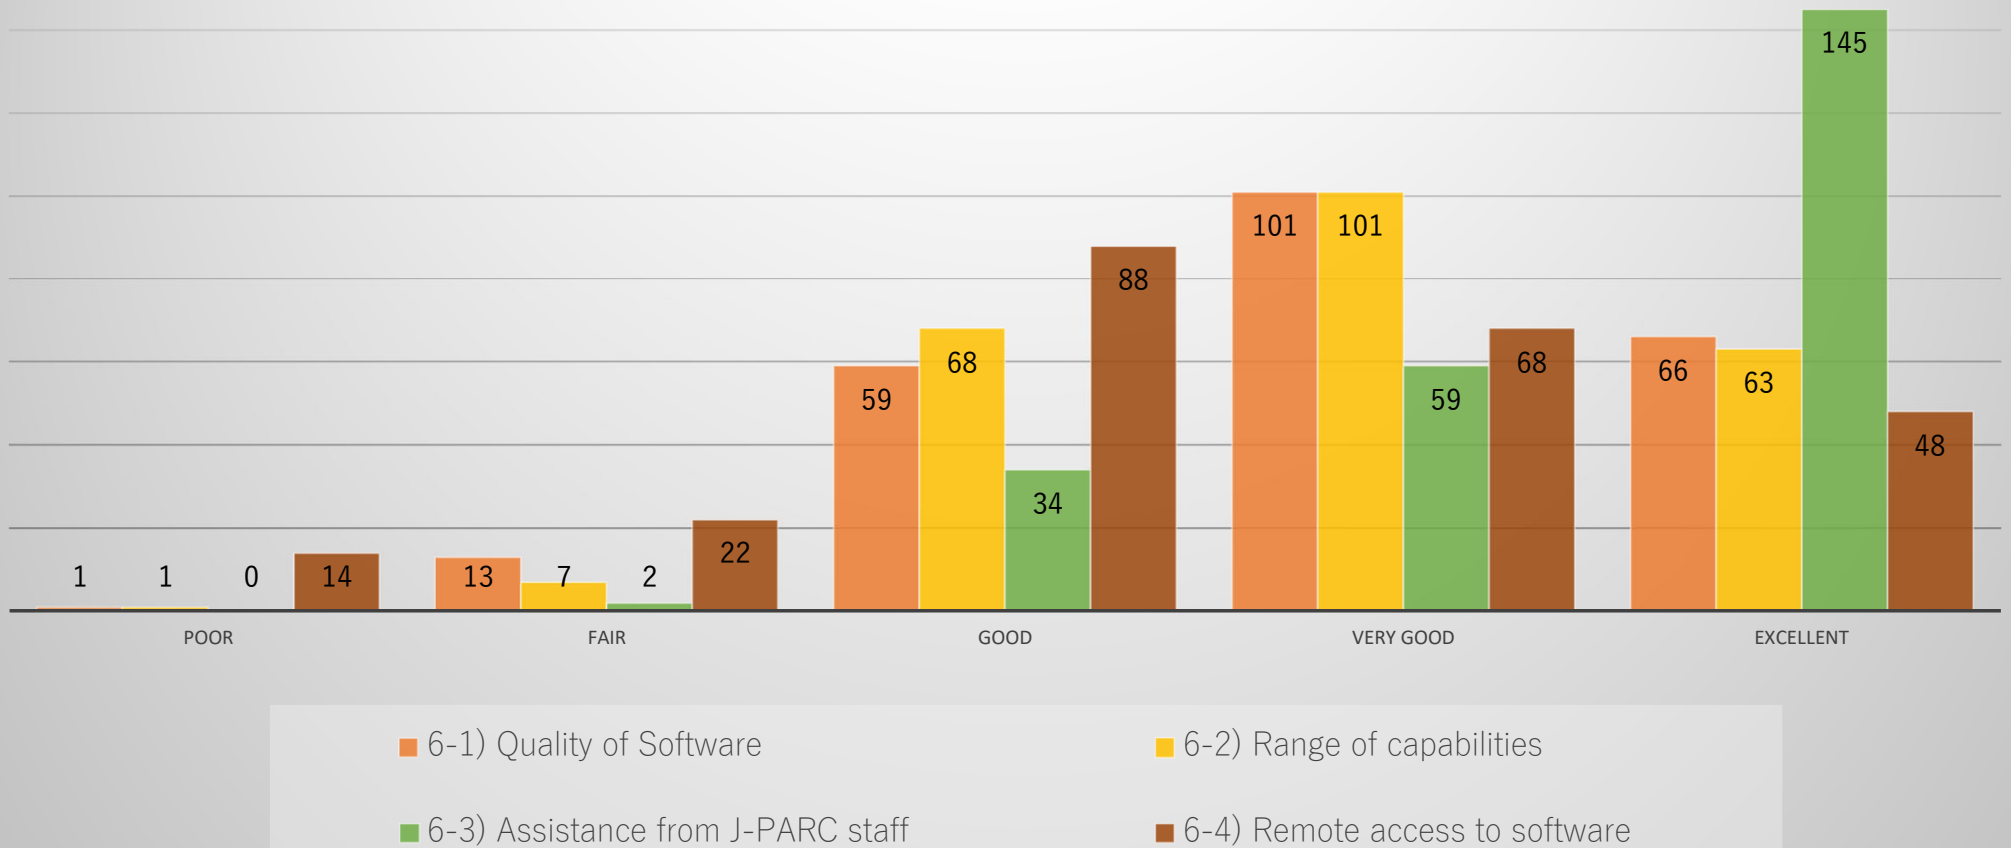

5. Instrument performance

■ 5-1) Support from J-PARC Staff ■ 5-2) Hardware reliability and performance ■ 5-3) Data acquisition/instrument control software

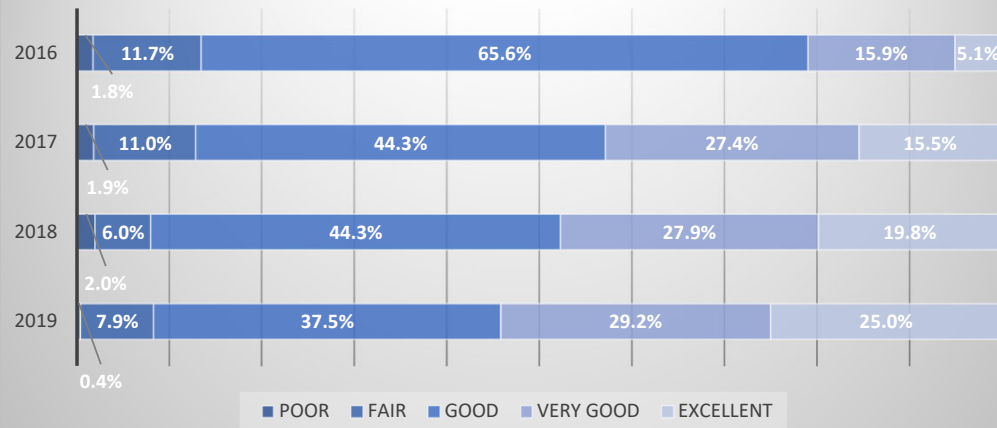

6. Software(Data Analysis Software)

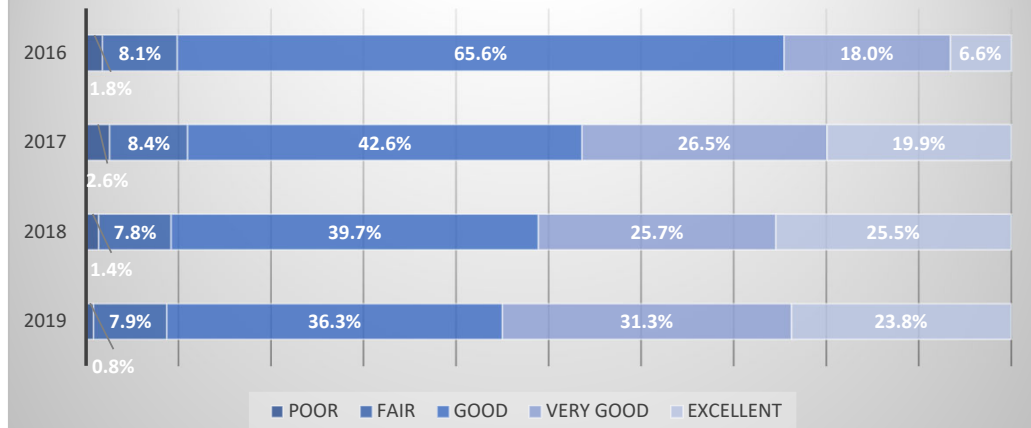

Comparison graph of respondents in both this and the preceding year

Comparison graph of items in both this and the preceding year.

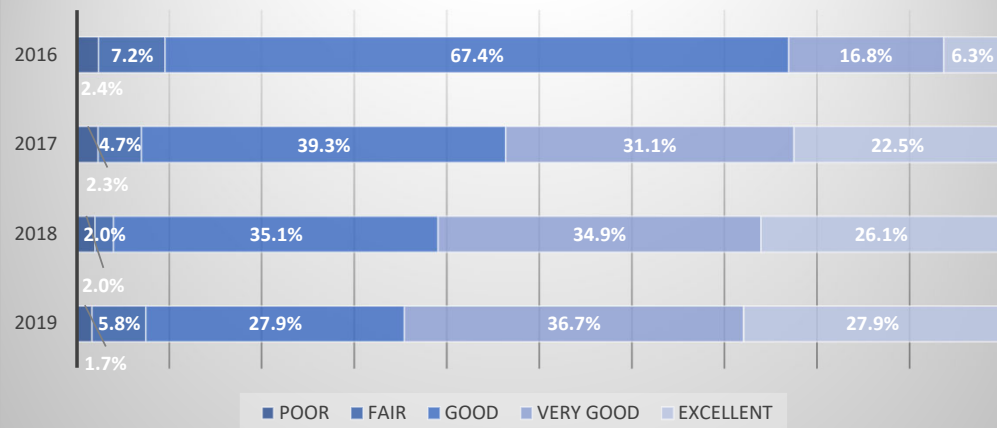

1-1) Ease of proposal process

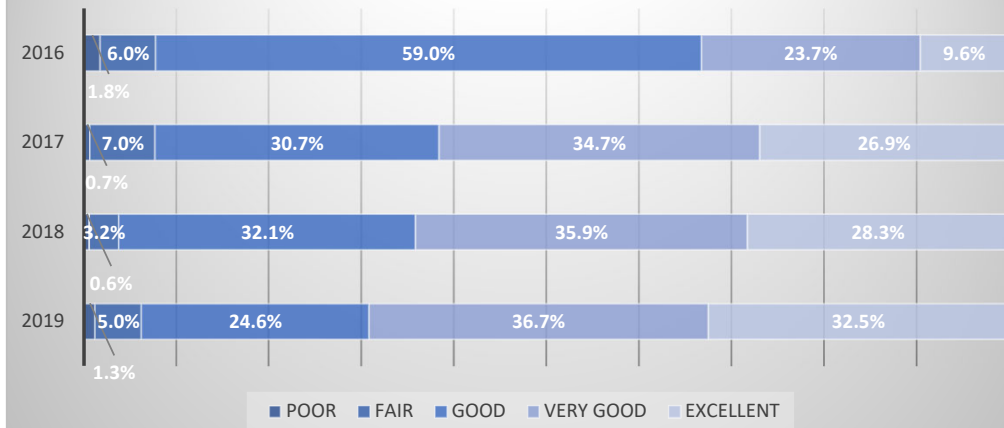

1-2) Efficiency of scheduling time

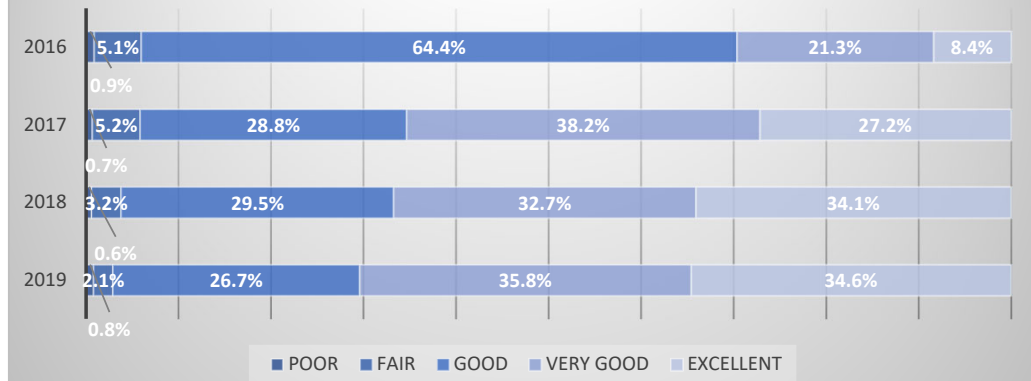

1-3) Fairness of proposal process

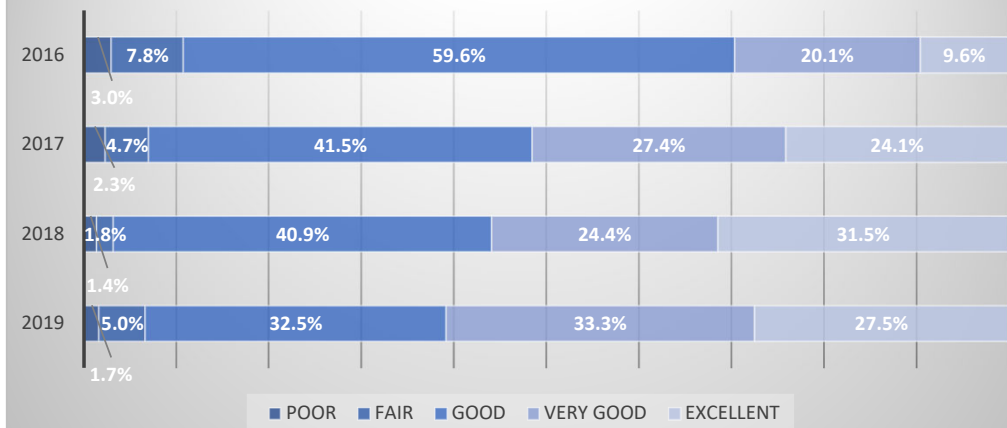

2-1) Effectiveness of computer based training

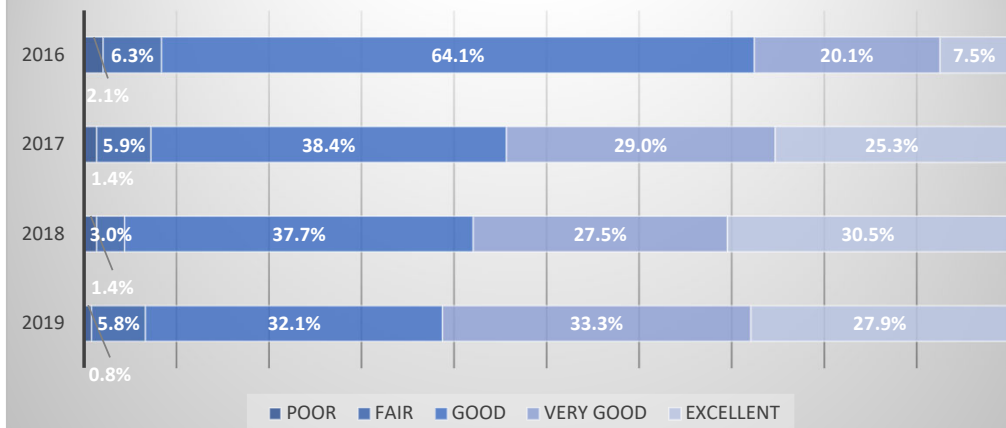

2-2) Appropriateness of the contents regarding safety education

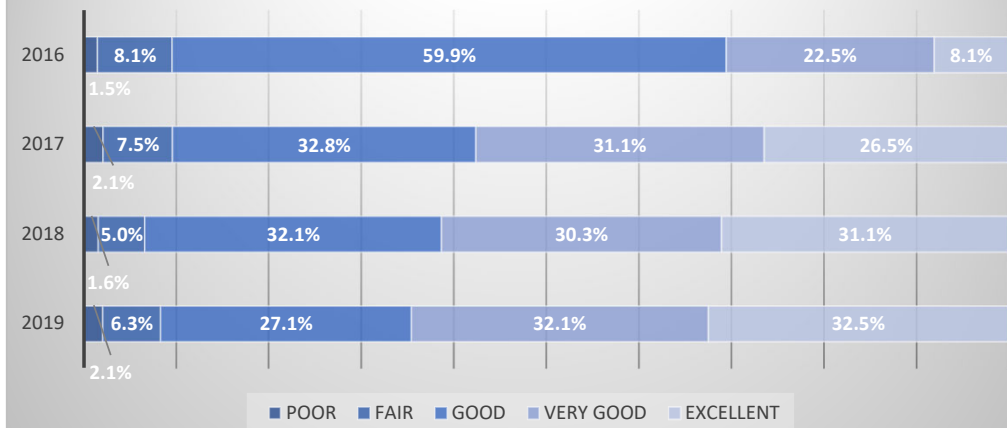

3-1) User laboratory facilities

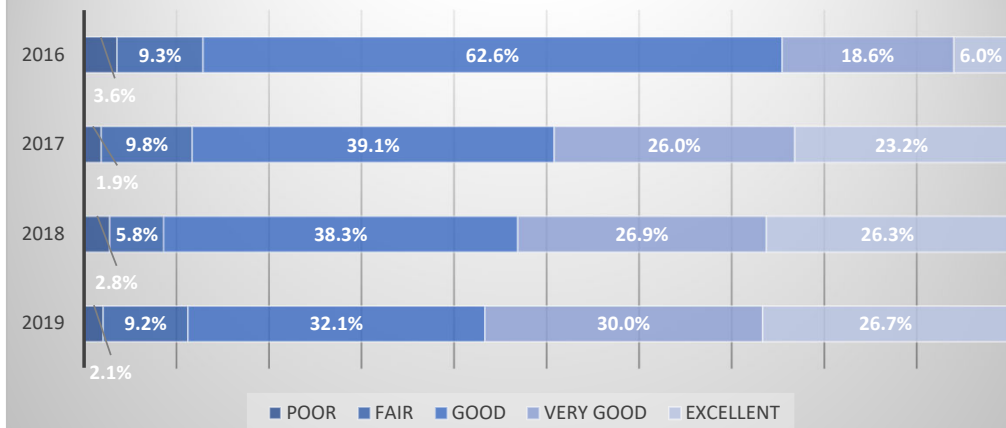

3-2) Tools and supplies in user labs

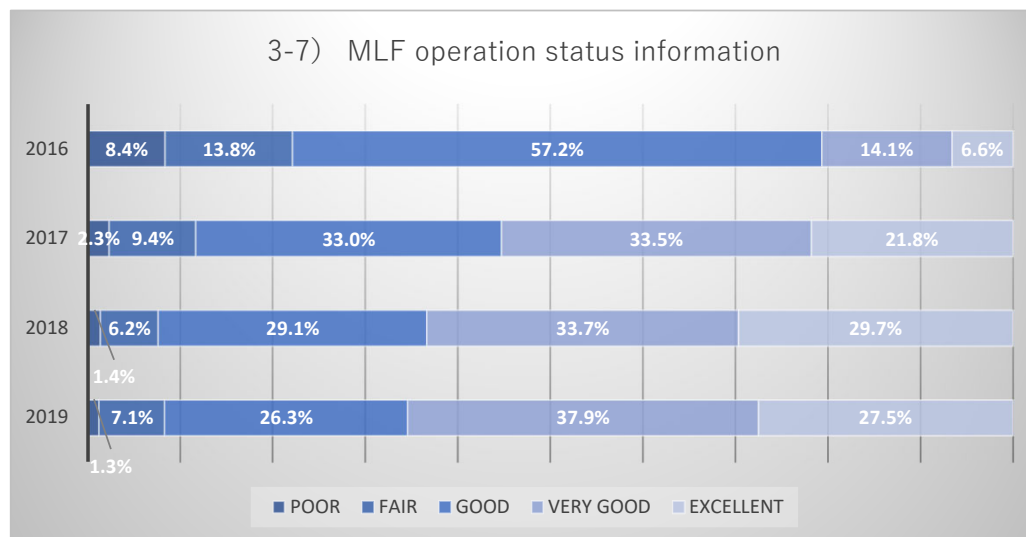

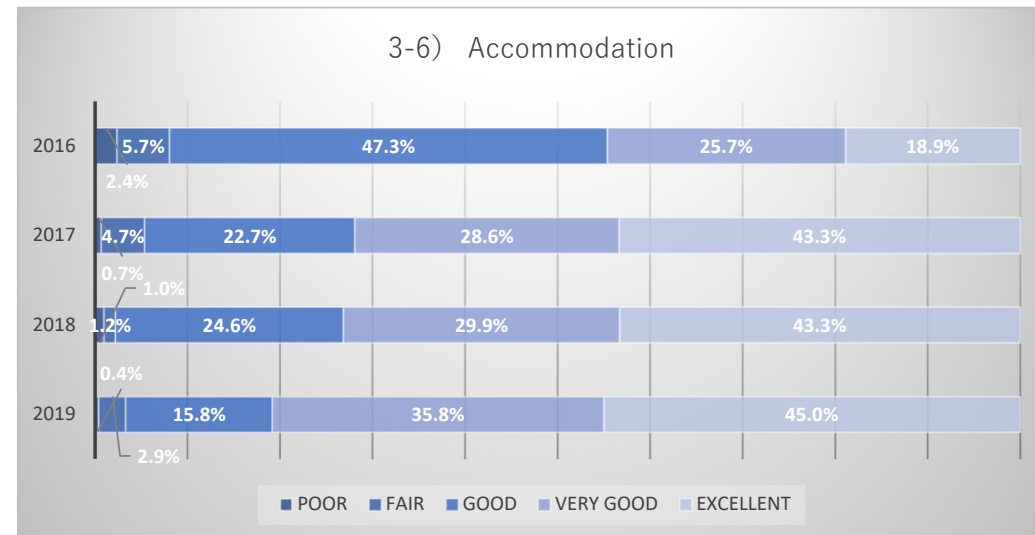

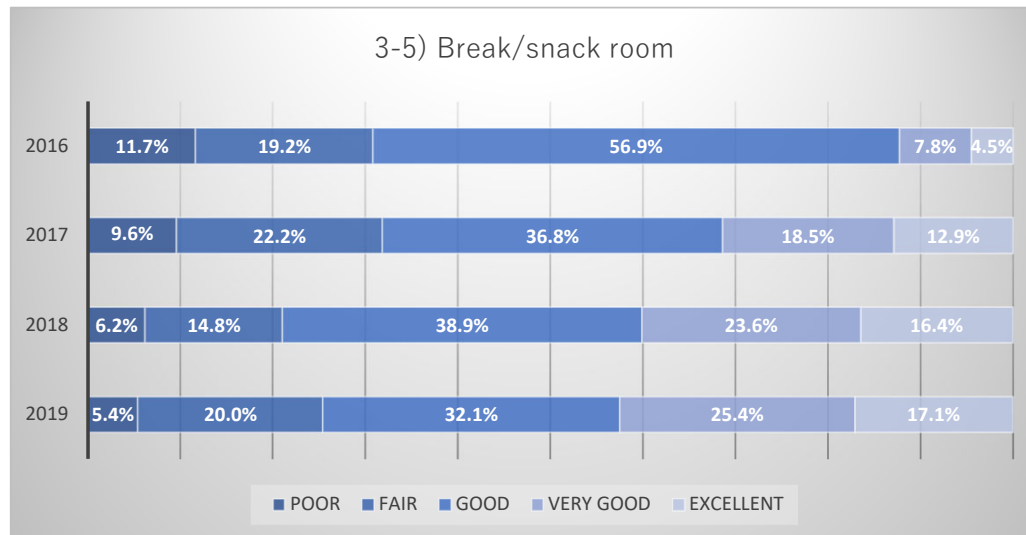

3-3) Computers/network access for visitors

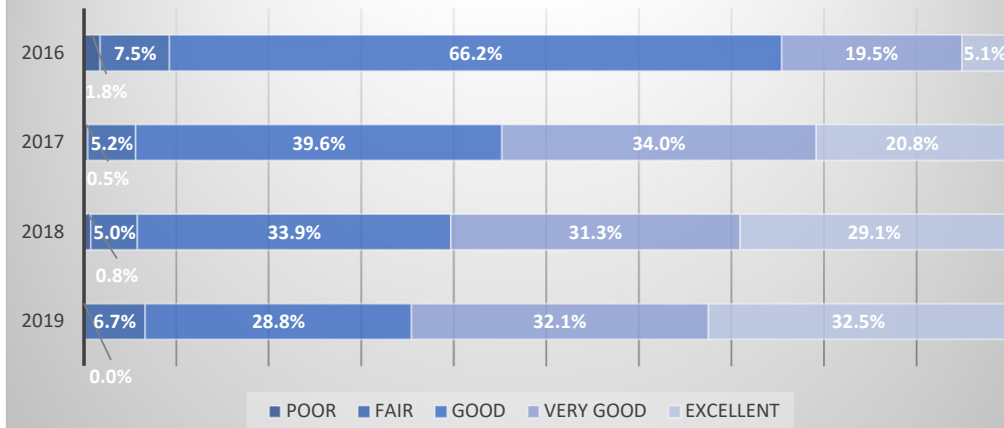

3-4) User Rooms

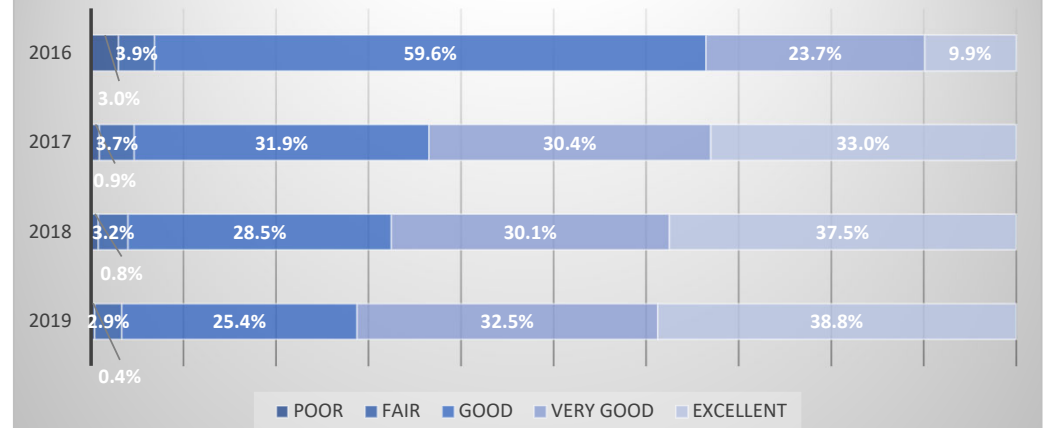

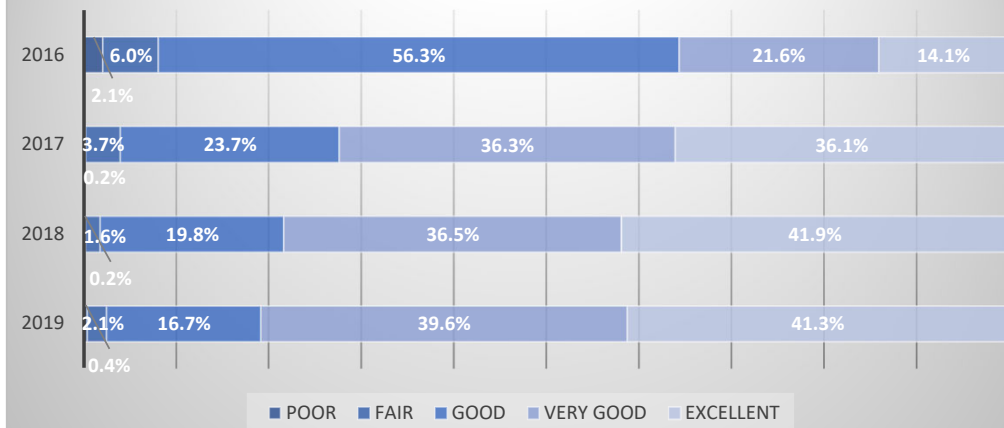

4-1) Variety of sample environments

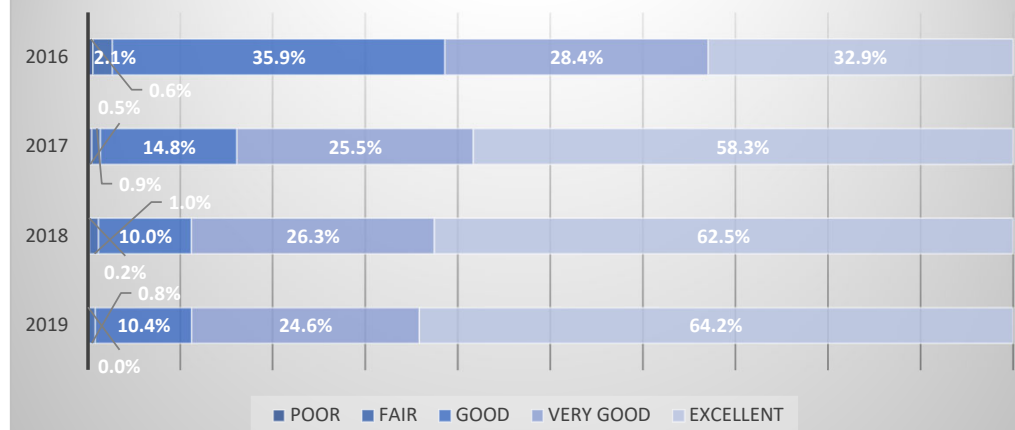

4-2) Support from sample environment personnel

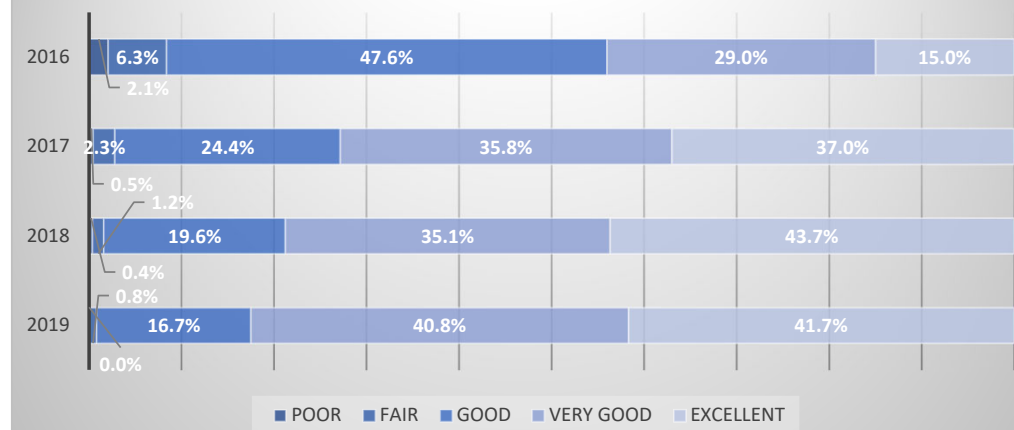

4-3) Quality and reliability of the equipment

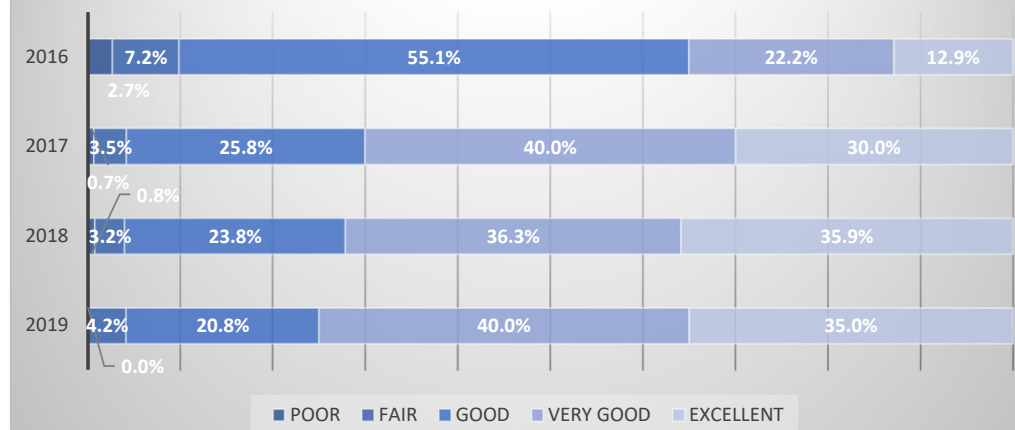

5-1) Support from J-PARC Staff

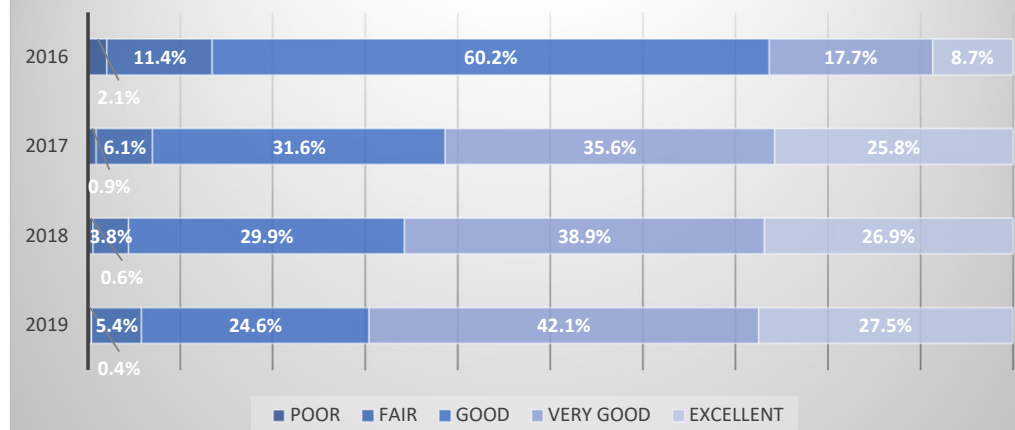

5-2) Hardware reliability and performance

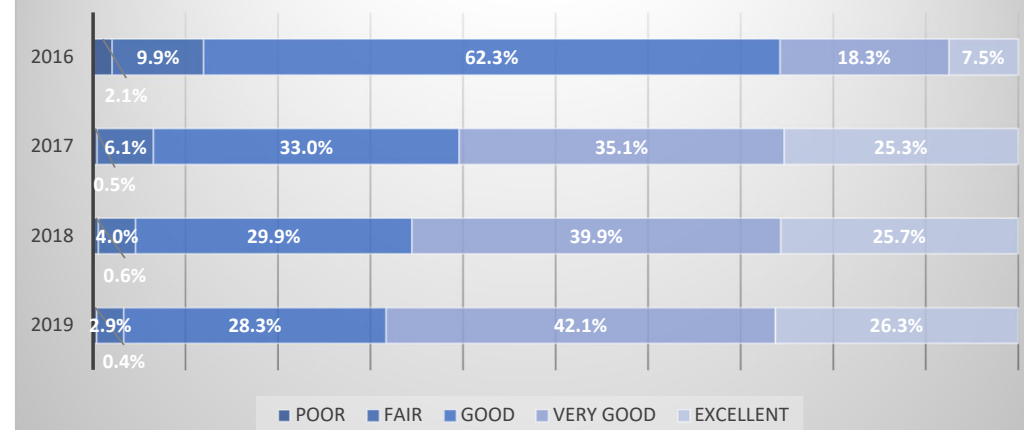

5-3) Data acquisition/instrument control software

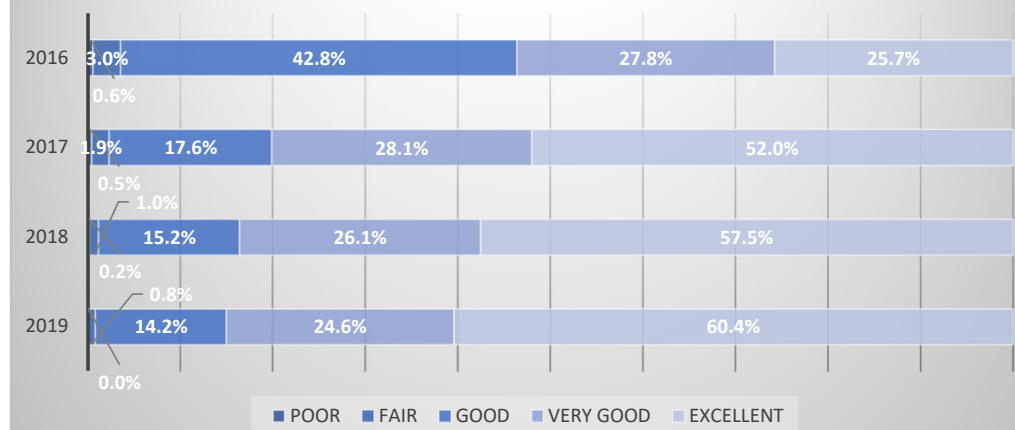

6-1) Quality of Software

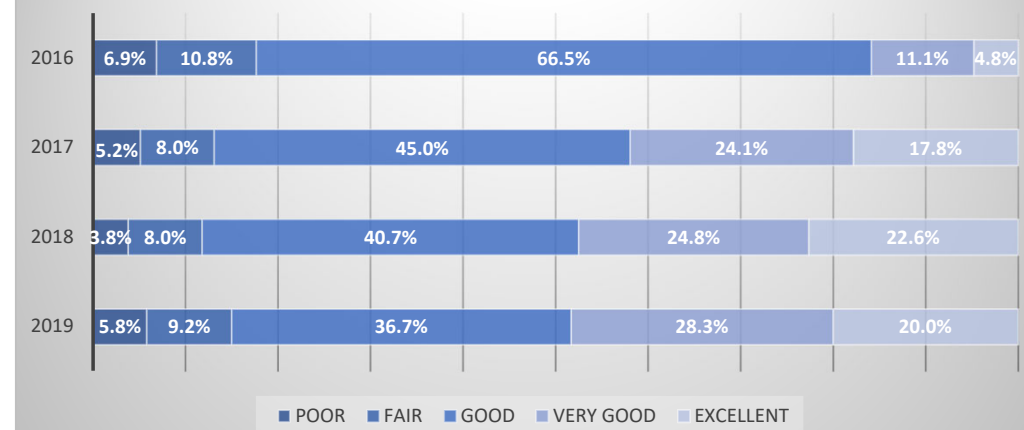

6-2) Range of capabilities

6-3) Assistance from J-PARC staff

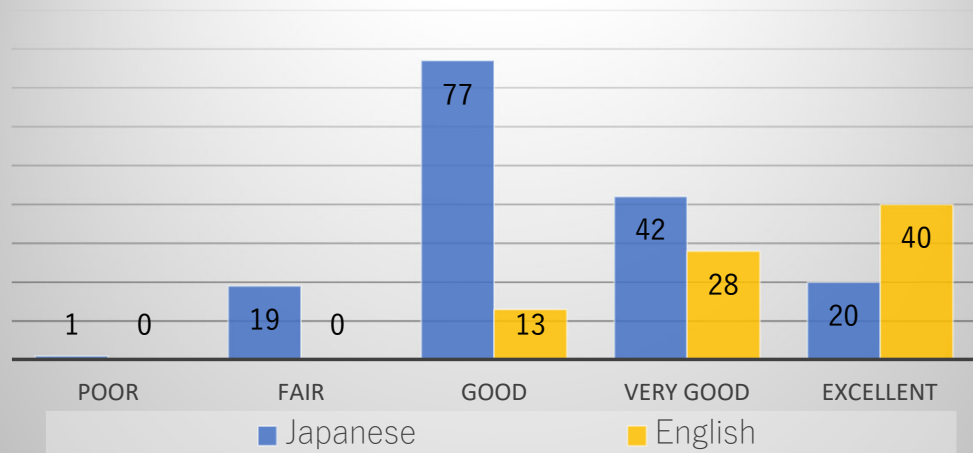

6-4) Remote access to software

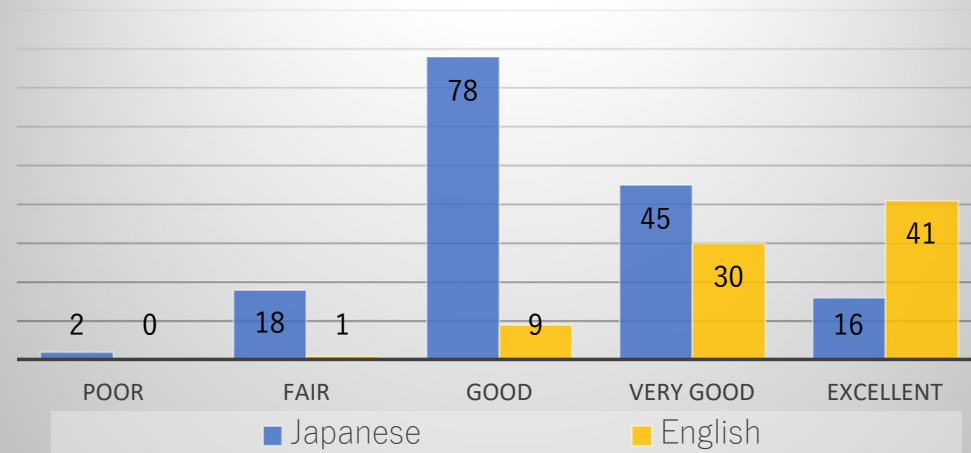

Comparison graph of respondents in both Japanese and English

Comparison graph of items by respondents answered in Japanese and English.

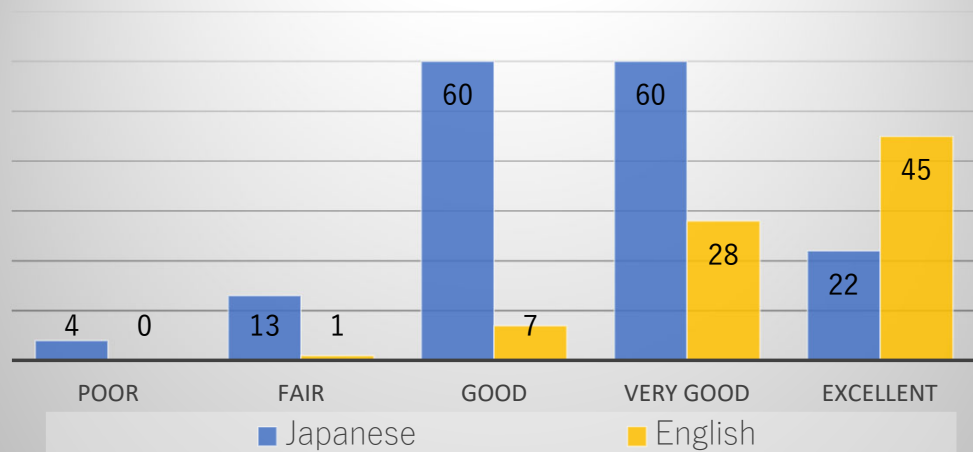

1-1) Ease of proposal process

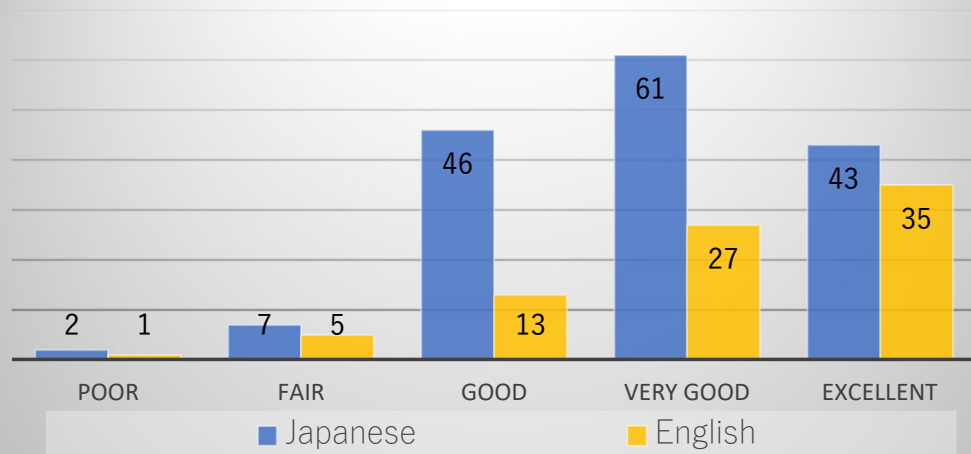

1-2) Efficiency of scheduling time

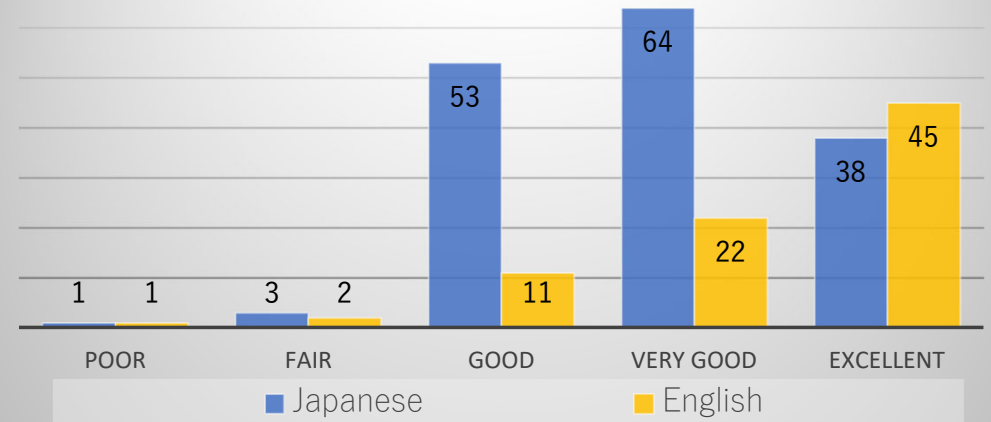

1-3) Fairness of proposal process

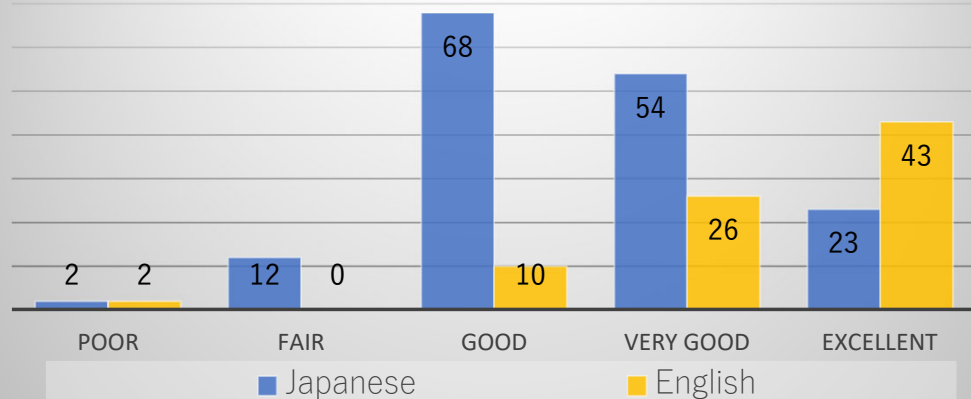

2-1) Effectiveness of computer based training
