About Vehicle Stations (Designated Parking Lots)

A station is set up for each vehicle. It is not possible to drop off the vehicle at another station.

Cautions for use and precautions to be observed

- The driver must be the registered driver who made the reservation. If an accident occurs with a driver other than the registered driver, the insurance may not cover the accident.
- Please keep the reserved return time. You can extend your reservation time from the mobile site (cell phone site, smartphone site) while you are using the service. If you are late because you cannot extend your reservation from the mobile site, please be sure to contact the Car Sharing Members Help Desk in advance. Unauthorized use of an unauthorized extension of time will result in an overage charge.
- Please use the vehicle at your own risk. In the event of damage or accident, please be sure to contact the Car Sharing Members Help Desk. If it is necessary to provide first aid to an injured person or contact emergency services or the police, please give priority to the emergency services. Please do not settle out of court between the parties involved.
- As a manner of shared use, please do not make reservations when you do not plan to use the room or make reservations for a longer period than necessary.
- Please refrain from smoking or bringing pets inside the car. When you finish using the vehicle, please clean it lightly for the next user. These vehicles are for shared use. Please use them neatly.
- When the remaining gasoline level is 1/3 or less, refuel at the nearest gas station using the gas card in the glove box. (See card for gas stations where you can refuel.)
- Vehicles are equipped with a vehicle location search function by law. In the event of an accident, trouble, or delayed return, the location of the vehicle may be searched by the Management Center.
- Service may not be provided in the event of excessive load on the system or communication network, such as in the event of a major communication failure or when a large volume of Internet mail is sent during the year-end and New Year holidays.
- In the event of system communication errors, etc., the vehicle may not be available for use. Please understand that we cannot compensate for any losses incurred by the customer in such cases.

Members who do not abide by the rules may be denied access.

If the engine key is not pulled out with the engine key set to [LOAN] within 10 minutes after the door is unlocked by the operation to start use, the security function will be activated, the door will be locked, and the engine will not start.
