

House regulations for Cyclists (all day)

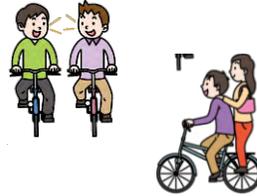

In order to improve safety of pedestrians and bicycle users on premises, the followings are J-PARC traffic rules for bicycles.

Adhere rigidly to the rules and manners and use your bicycle safely.

- ❑ Around Main Gate, **walk a bicycle along the route of the red line** (shown below).
- ❑ When entering or leaving Main Gate, **be sure to ride along the 'green belt' for the bicycle at north side of the gate.**
- ❑ Come to a **complete stop before Main Gate** for **confirming ID**.
- ❑ As a general rule, **drive on the left side of the road** and **get off the bicycle on the sidewalk**. (On public roads, sidewalks can be used at places designated by road signs, etc., but it is completely prohibited as the width of the sidewalks is narrow on the premises.)
- ❑ Obey traffic lights and check safety (come to a full stop) at onsite intersections. **When turning right at an intersection, as a general rule, make a two-step right turn.**

Follow the safety rules

Do not run side by side and double

Do not use umbrellas, earphones and cellphones

Do not slip through cars waiting for a traffic light

Turn on the light after dark
