Wi-Fi for visitor and user

When "Userlan3" does not work, Try to use GWLAN3.

You have to input weekly password at authentication page (via internet browser).

Get the weekly password and connect to GWLAN3!

SSID	GWLAN3
PASSWORD	**Weekly password. See the password list!**

Begin to use GWLAN3

Select "GWLAN3"
Input "GWLANGWLAN2" to Network security key of OS.
Weekly password is required at the next step.

Second step:
Open any internet browser on your OS and when the registration page opens, Read notifications,
Enter (1)your name, (2)affiliation(institution), (3)own e-mail address
and (4)**weekly password**!

Members of eduroam participating universities

can use eduroam at J-PARC.
